The term bhagati in Sanskrit comes from the word brahman, which means a man of great power. According to the Vedic texts, brahman has three aspects - one is intelligence and wisdom - a second is physical power and strength - the third is social status, or wealth. Since there was no need to identify brahman with physical power or strength, the terms bhagatra and bhagavadhika were used (see SANGARU AND SANGARE and SANGARI AND SANGARE). The Brahma-gaga was the greatest of the Brahmins who ruled over the people of the world. It was called the Brahma-gaga because of its many incarnations. A king of Srava and Arunachal Pradesh, Sivaramini became one of these kings and made the people believe that he was a king of the entire world. This proved to be untrue because all of the Sravai-kundan (the world of humans) are Brahmins..
